Service Call Details

- | | |
|---------------------------------------|--|
| 7. Service Objectives | <i>Customer called because fan had high vibration and they wanted to check balance on it. Upon arrival I found that all the fan blades were broke on fan, the motor was making a noise so I checked vibration and determined the inboard bearing was bad on motor.</i> |
| 8. Services Performed | <i>Checked vibration on motor</i> |
| 9. Service Technician Recommendations | <i>Replace bearings in motor and replace the fan wheel itself as there are no blades left in the fan</i> |
