| 5. Serial Number                |              |
| 6. Customer Asset ID/Asset Name | Penguin pump |

### Service Call Details

- |                                       |   |
|---------------------------------------|---|
| 7. Service Objectives                 | Check motor and contactor.  |
| 8. Services Performed                 | Checked voltage to motor. 208,208,209. Checked amps. 14.5,14.3,14.5. 2000 megaohms at 1000 volts. Pulled apart contactor and it looks good. Voltage to coil on contactor is 119-good. Motor saver was set right at 208 volts so I lowered it a few volts in case another piece of equipment starts and robs power from the line causing a trip. Motor ran good. |
| 9. Service Technician Recommendations |   |

### Approval Signatures

- |                                  |             |
