CUSTOMER SPOTLIGHT:

SRG GLOBAL

by Jeff Utley

In between Christmas and New Years HI-Speed received a call from one of our customers, SRG Global regarding a crane problem. They have several locations in our area and are mainly known for their work in the auto industry. Their Newbern, TN location has 35 cranes which they use to lift dies that are used to make vehicle grills and various other auto parts.

Upon receiving the call our team sprang into action and removed the hoist carriage from the bridge. We brought this back to our shop and spent 4 days, working around the clock to get this customer back up and running. This was truly a team effort and had an all-hands-on deck approach. We overnighted parts, drove to local vendors for parts, had to enlist a third-party company to help with some machining needs and even had to consult with an engineer. I was very proud of the entire team's attitude, determination and relentless work ethic on this project.
